Kurukshetra University Technology Incubation Centre (KUTIC) organized a valuable online talk on February 23, 2023, exclusively for the students and research scholars of the Botany Department. The guest speaker for this enlightening session was Mr. Parteek Sharma, the founder of Green and Grains.

Mr. Sharma generously shared the inspiring journey of his transition from the banking sector into the realm of agriculture entrepreneurship. He provided invaluable insights into his experiences and expertise gained in the agri sector, shedding light on both the challenges and opportunities he encountered along the way.

The session was made even more insightful as it was presided over by Prof. Narender Singh, the Chairperson and Professor of the Department of Botany at Kurukshetra University, Kurukshetra. This online talk not only offered students and research scholars a unique perspective on agriculture entrepreneurship but also served as a source of motivation for those looking to explore innovative pathways in the field of botany and agriculture.
